

Disclosure Statement to accompany MS-AER-2017-0627.R2: “An Economic Analysis of Privacy Protection and Statistical Accuracy as Social Choices”

John Abowd

16 August 2018

1. The research in this paper was supported by Alfred P. Sloan Foundation Grant G-2015-13903 and NSF Grant SES-1131848 and EPSRC grant no. EP/K032208/1. I was also supported in this research by the U.S. Census Bureau (before and during my appointment as Associate Director) and from NSF Grants BCS-0941226, TC-1012593, as well as by the Center for Labor Economics at UC Berkeley, where I was a visiting scholar when this work was initiated.
2. In the past three years, I have received significant financial support from Cornell University and from the U.S. Census Bureau. I am Associate Director for Research and Methodology and Chief Scientist of the U.S. Census Bureau.
3. None of my close relatives holds a position as officer, director, or board member of any relevant organization.
4. This manuscript has undergone content, and supervisory reviews at the U.S. Census Bureau.
