

November 16, 2019

To Whom It May Concern,

A small portion of the work in this paper, entitled “Peer Effects in Residential Water Conservation: Evidence from Migration,” was funded by an Arizona State University Pre-Doctoral Fellowship during the spring of 2014. Jesse Burkhardt was the recipient of this award. The outcome of the work was not tied to the funding in any manner. The remainder of the work has not received external funding. I have no other disclosures to make.

Sincerely,

A handwritten signature in black ink, appearing to read "Jesse Burkhardt", is positioned above the typed name.
