

Disclosure statement: Megan Stevenson

Algorithmic Risk Assessment in the Hands of Humans

We did not receive any funding for this research. However, both Megan Stevenson and Jennifer Doleac received funding from the American Constitution Society for a white paper on the use of risk assessment, called The Roadblock to Reform. This document, published in November 2018, can be found here: <https://www.acslaw.org/wp-content/uploads/2018/11/RoadblockToReformReport.pdf>

I have no other conflicts of interest to disclose.
