

Disclosure Statement for "Job Displacement and Job Mobility: The Role of Joblessness"

Matthew Staiger

8/18/2021

This research was conducted while I was a graduate student at the University of Maryland and while I was also working at the U.S. Census Bureau through the Pathways Internship program. As noted in the acknowledgement of the paper, all results were reviewed by the Census Bureau disclosure avoidance staff to ensure the confidentiality of the data is not compromised. An early draft of the paper was reviewed by Census Bureau scientific staff prior to circulation in accordance with the Census Bureau paper review policy. No further reviews are required to circulate the paper. In addition to receiving financial support from the University of Maryland and the U.S. Census Bureau, I also received funding from the Washington Center for Equitable growth and the Economic Club of Washington D.C. to support my dissertation work (the current research is not part of my dissertation). I currently am employed at Opportunity Insights.
