Pittsburgh, PA 15203

Dear Editors:

This is a disclosure statement for the manuscript, "The Effectiveness of Influenza Vaccination in Children" (joint with Carlos Dobkin, Michael Anderson, and Devon Gorry) that we are submitting to AEJ: Applied.

This project is supported by NIH grant #R01 AG044796. I have no conflicts of interest for this specific project. I do not own stock or a role in a company that produces the flu vaccine. I received research funding support through my institute from Moderna, GlaxoSmithKline, and Seqirus unrelated to this project. I also served on advisory boards for Janssen and Pfizer

We have Institutional Review Board (IRB) approval from the National Bureau of Economic researches Committee for Protection of Human Subjects FWA #00003692 IRB Ref#20\_150.

Sincerely,

*Hung Fu Tseng*
