

Disclosure Statement for Daniel Fetter

Paper: Government Old-Age Support and Labor Supply: Evidence from the Old Age Assistance Program, by Daniel K. Fetter and Lee M. Lockwood

I have no relevant or material financial interests that relate to the research described in this paper.

- (1) This project received financial support from the National Science Foundation (NSF) through grant SES-1628860 (which started 9/2016).
- (2) I did not receive more than \$10,000 in support from any interested party over the past three years.
- (3) I do not have any paid or unpaid positions as officer, director, or board member of a relevant non-profit organization or profit-making entity.
- (4) Over the past three years, my spouse has received more than \$10,000 in financial support or research funding but not from interested parties. In particular, she received research funding from the National Institute on Aging (NIA) and the NIH Common Fund, Office of the NIH Director, through Grants T32-AG000186, R03AG043041, and U01-AG046708 to the National Bureau of Economic Research (NBER); National Science Foundation (NSF) Grant Number 1151497; the Alfred P. Sloan Foundation; the MacArthur Foundation (through their MacArthur Fellows program); the Kauffman Foundation (through their Junior Faculty Fellowship in Entrepreneurship program); the NBER Innovation Policy and the Economy program; the Hoover Institution's IP² program; the Washington Center for Equitable Growth; and the Toulouse Network for Information Technology.
- (5) No party had the right to review the paper.
