Job Market Preparation

Navigating the job market as an early career economist requires strategic planning:

- Diverse Career Paths: Highlight the wide variety of career options available to economists, including academia, government, private sector, and non-profit

organizations.

- **Networking:** Discuss strategies for building professional networks, including attending conferences and leveraging social media platforms like LinkedIn.

Grant Application Strategies

Securing funding is crucial for early career researchers. The conversation can cover:

- **Funding Sources:** Introduce funding opportunities, such as US and international grants

Speaker(s)

David Lobell, Stanford University
Topic: The Rational Farmer in a Changing Climate

This talk will describe how the rational farmers Ted Schultz described are now facing a climate that is rapidly shifting, which changes farming in two important ways. First, farmer success is more important than ever because it is a key factor for reaching global emissions targets. Second, success is more difficult to achieve, as adaptations are proving less helpful than first thought. Some reasons for this and ideas for new approaches will be discussed.

Topic: Reproducibility from Day 1

Marie Connolly, UQAM
Topic: Reproducibility from Day 1

Journals require that you share your code and data in a replication package upon acceptance. However, efficient reproducibility starts at the beginning of the research project. Following some best practices can not only help you prepare a replication package later, but also make you a more productive researcher. In this workshop, we start with an empty folder and demonstrate methods to keep your project reproducible from Day 1.

CSWEP Mentoring Breakfast for Junior Economists

Event

 Friday, Jan. 3, 2025  8:00 AM - 10:00 AM (PST)

Hilton San Francisco Union Square, Franciscan B

Hosted By: Committee on the Status of Women in the Economics Profession

Presiding: Ina Ganguli, University of Massachusetts Amherst

At these informal meet-and-greet events, senior economists will be on hand to provide mentoring and networking opportunities.

Junior economists are invited to drop in with questions on topics such as publishing and research, promotion and tenure, work-life balance, the job market, teaching, grants, and academic versus non-academic jobs. During the event, rotation of mentees is encouraged so that they may have an opportunity to connect with the greatest number of senior mentors.

This mentoring experience is intended for junior economists who have completed their Ph.D. in the past 7 years or graduate students who are on the job market. The event is open to all, regardless of gender. Breakfast will be provided.

Join us in honoring Claudia Goldin who was awarded the 2023 Nobel Memorial Prize in Economic Sciences "for having advanced our understanding of women's labor market outcomes." The Royal Swedish Academy of Sciences stated that Goldin "provided the first comprehensive account of women's earnings and labor market participation through the centuries. Her research reveals the causes of change, as well as the main sources of the remaining gender gap."

All registered ASSA attendees are welcome.

Data editors describe possible steps to self-check replication packages before submitting them to a journal. It is not meant to be exhaustive, and it is not meant to be prescriptive. There are many ways to construct a replication package, and many more to check that it works. Questions from the audience are encouraged. Participants are encouraged to also attend Tutorial 1.

We're happy to announce that our SEF is now part of the ASSA!

As a non-profit promoting scientific research through experimental finance, we bridge geographical and disciplinary divides, uniting friends and colleagues.

Explore our new website at expfin.org for more details and become a member.

Join us at our reception to connect with researchers who are pioneering experimental approaches in finance.

Warm regards,

Stefan Palan, Anita Kopányi-Peuker and Sascha Füllbrunn
